A Reflection on the Sounding of the Shofar:

When the shofar sounds, we hear voices of our ancestors reminding us to be loyal to our people.

When the shofar sounds, we hear a voice deep inside us urging us to improve.

When the shofar sounds, we hear the voice of God.

Wake up! cries the shofar and we are sad. We remember our wrongdoing this past year.

Wake up! cries the shofar and we are glad. There's time to change; we need not fear.
