

Engineering (Handasah) Specialist

Job Description:

The Engineering (Handasah) Specialist plans and leads hands-on, project-based learning experiences that introduce campers to core engineering concepts in a fun, engaging, and age-appropriate environment.

Responsibilities:

- Lead short kvutzah (bunk) activities in the morning.
- Facilitate two 40-minute elective (chug) sessions throughout the week for campers who want to explore the world of engineering in greater depth.
 - Past activities have included cardboard engineering activities, building with small blue blocks or LEGO, and beginner coding or problem solving projects.
- Maintain an organized and safe activity space
- Work collaboratively with counselors and/or other specialists

Qualifications:

- Interest in engineering, building, design, or related fields
- Enjoys working with children in active, creative settings
- Strong communication and organizational skills
- Ability to lead engaging hands-on activities

This is a fantastic opportunity for someone who is passionate about bringing engineering to life in a fun, engaging, and meaningful way at **Ramah Day Camp Greater DC!**
