

STEM (Mada) Specialist

Job Description:

The STEM (Mada) Specialist creates dynamic, hands-on learning experiences that spark curiosity and excitement in science, technology, engineering, and math.

.

Responsibilities:

- Lead short kvutzah (bunk) activities in the morning, providing a taste of STEM.
- Facilitate two 40-minute elective (chug) sessions in the afternoon throughout the week for campers who want to dive deeper into specific STEM topics
 - Past activities have included experiments, making slime/ublek, creating solar ovens, or collaborative problem-solving projects.
- Maintain a safe and organized activity area
- Work collaboratively with counselors and other specialists
- Encourage curiosity, creativity, and teamwork

Qualifications:

- Interest in science, technology, engineering, and math
- Enjoys working with children in active, creative settings
- Strong communication and organizational skills
- Ability to lead engaging hands-on activities

This is a fantastic opportunity for someone who is passionate about bringing STEM to life in a fun, engaging, and meaningful way at **Ramah Day Camp Greater DC!**
